Thursday - 1 April 1976  15. LIAISON John Watson, GAO, called on a Comptroller General report on the Mayaguez incident being prepared for the Subcommittee on International Political & Military Affairs, House International Relations Committee, and said that a staff member of the National Security Council had suggested that it be made available to the Agency for review in the interest of assurin the comprehensiveness of the report. Watson is sending the report to us on the condition that we are not required to make an input and no mention will be made of this review by the Agency if we decided not to make any comment. The report will be reviewed by IC Staff, and NIO Staff.  16. BRIEFING Met with Mike McCloud, Staff Director, and Harlan Strauss, on the staff of the House Republic Conference, and reviewed arrangements for the Director's appearance on 6 April. It was agreed that Chairman John Anderson (R., Ill.) will, in his opening remarks, indicate that the discussion is to be limited to substantive intelligence information and will not include any operationa information. Since there is no way to anticipate whether questions asked will require a classified response, McCloud said that he would prefer that no staff members of the House Republican Conference participate since none of them hold security clearances. Strauss said he would have a talley clerk listing of those members who did attend the session and would provide us a copy of that document. They also raised the possibility of conducting similar sessions periodically. I recommended that we see how the first session goes and that if it goes well, we not set up a scheduled session since I thought the interest would tend to wane but that we provide briefing's on topics which general substantial interest. They agreed.  17. LIAISON Called Chuck Meissner, Senate Foreign Relations Committee staff, to determine the backgrounce of the statement in Jack Anderson's 23 March 1976 column that the Agency had provided the Subcommittee on Multinational Corporations,	Approved For Release	662002117301 CWRDP78M02660R0003	300060054-1
